LEGO® Builder

Welcome to LEGO® Art

Experiencing art in any form expands our imagination and unleashes our creative curiosity. What drives the great masters to create iconic works of art can be found in each one of us. It starts with observing *what is*, wondering *what might be*, and feeling inspired to *express new ideas* in an artistic medium. Welcome to the LEGO® Art experience.

Build & Display

Your LEGO® Art *Mona Lisa* has a built-in wall hanger element, so it's easy to hang on your wall.

MONSA
MIS

"One might truly say that the artistry of this work would cause fear and trembling in any valiant artist." – Giorgio Vasari, 1550

A visionary scientist, inventor and polymath, Leonardo da Vinci (1452–1519) is most famously known for his groundbreaking Renaissance artwork. He created relatively few paintings, but his expansive portfolio of realistic and lifelike drawings, illustrations and inventions is proof of his meticulous scientific methods, love of nature, unparalleled imagination, artistic talent and innovative techniques. The most famous of his works is his enigmatic portrait of Lisa Gherardini, the *Mona Lisa*. Painted on a poplar panel in a carved walnut frame, it is the result of more than a decade's work (1503–1519). Da Vinci applied layers of exquisite detail to achieve depth and perspective, and with the use of his ingenious *sfumato* technique, he softened contours and contrasts to bring out an almost ethereal glow in his model.

The artistic pinnacle of Da Vinci's exceptional career has enthralled royals, regents, artists and art-lovers all over the world for five centuries. Since 1797, the *Mona Lisa* has been one of the crown jewels in the formidable Louvre Museum in Paris. A bold theft in 1911, which left the painting missing for two years, definitively propelled the piece to global fame, and millions of art lovers visit the *Mona Lisa* every year. Its influence on art history and pop culture remains unrivalled. Now you can retrace the lines of Da Vinci's majestic masterpiece without fear or trembling – just a deep respect for the artist and his creative mind.

The LEGO® Art interpretation

Re-interpreting **the** most famous artwork in the world in LEGO® form is a playful way to push the boundaries and find challenging new ways of using LEGO bricks as an artistic medium. A lot of research went into choosing the right format, colours and shapes to make the final artwork stand out. The colours in the original painting have naturally faded and the lacquer has oxidised, giving the piece a faint yellow tone. As an homage to Leonardo da Vinci's masterpiece, this model imagines what the *Mona Lisa* might have looked like when it was freshly painted, in a vibrant composition of LEGO colours. Geometric and mathematical formulas were applied to the model to make sure the pose and features are faithfully represented. Designed to delight and spark curiosity and creativity, this model demonstrates how you can really take advantage of the visual impact of LEGO elements and create your own art.

Change the expression / Experiment with expressions

The gold-coloured frame, built separately, gives you the artistic liberty to rebuild, replace it with your own frame, or use it for your own original LEGO® Art creation. If you want to experiment with a more abstract expression, you can change Mona Lisa's eyes with alternative, unprinted eye tiles.

Listen

Scan the QR code to start your guided tour behind the scenes of Leonardo da Vinci's *Mona Lisa*.

Build

Dive into every detail as you build your way through the LEGO® Art masterpiece.

Relax

Allow yourself to be enchanted by the creative process behind a timeless work of art.
