## FAST CARS, FURIOUS ACTION

Fuelled by adrenaline, and a lot of NOS, the *Fast & Furious* saga has raced through more than two decades, crossing lines between high-speed heists, high-octane action and humour. Packed full of dynamic street races and global adventures, the saga is about more than fast cars – however fierce they may be! It's about family, loyalty, trust and pushing limits. With its pulse-pounding stunts and lasting legacy, the series has cemented its place as one of cinema's most thrilling action franchises. We went total LEGO® Technic on this one, so buckle up!

# WE WON'T FORGET ABOUT IT

Brian O'Conner's iconic silver and blue Nissan Skyline GT-R (R34) has become one of the most recognisable vehicles from the *Fast & Furious* franchise. 'Translated' into LEGO® Technic building language, this version captures the characteristic exterior silhouette, livery and an array of functions to mimic some of its classic movie manoeuvres (who could forget the opening race in *2 Fast 2 Furious* (2003) on the hot, humid streets of Miami?). Recreating this fan favourite, with its high-speed potential, all-wheel-drive system and inline engine, offered an exciting challenge for LEGO designers – and a really fun building experience! Take a quick sneak peek at some of the details before you race to open the first bag.

# 2FAST 2FURIOUS

NISSAN SKYLINE  
GT-R (R34)

# YOU NEED NOS

Inside and out, this street-racing rocket model oozes power and authenticity. What makes the Nissan Skyline GT-R (R34) stand out in the film is its road and racing performance. We've incorporated an awesome new technique to mimic this: A switch in the back activates a function that gears the front wheels to the rear powertrain and raises the chassis slightly. This makes the rear wheels spin faster, and two ball elements keep the car steady while you race and drift!

With front and rear suspension, it moves smoothly across most surfaces. The doors and boot open, and under the bonnet, the inline 6-cylinder engine moves when the car is driving. Steering works either with the wheel or top steering, and you can adjust the rear wing for the perfect display pose. On the left side of the car, you'll even find three tanks of LEGO® Technic NOS (Nitrous Oxide Systems). Are you ready? GO!
