A ZERO POINT LEGEND

Assemble the mech that saved Fortnite's Chapter 1 island! Constructed at the Pressure Plant during Season 9, this legendary mech combines Durr Burger, Beef Boss, Cuddle Team Leader and more into one vibrant super guardian.

Fully posable and equipped with its Sword of Singularity, it's ready to relive its iconic victory over The Devourer during the unforgettable *Final Showdown* live event. A significant part of Fortnite history, the mech holds sentimental value for those who witnessed its heroic moment and the build-up that preceded it.

Mecha Team Leader blends futuristic, battle-ready features with the playful charm of a bear mascot, channelling the aesthetics of classic mecha anime. Its design still resonates with players for its nostalgic ties to giant robots and its fun, light-hearted style.

This collectible Mecha Team Leader lets you preserve a piece of Fortnite history and celebrate one of the game's most beloved events and iconic characters.

THE RISE OF MECHA TEAM LEADER

- The terrifying Devourer from Polar Peak rises, firing lasers and smashing objects, heading toward the Vault at Loot Lake.

- Mecha Team Leader activates, ascends through the hatch and begins its march to face the monster in battle.

- The mech fires missiles at The Devourer, which retaliates with a green laser, knocking the mech to the ground.

Mecha tackles The Devourer into the ocean and emerges triumphant, only for the monster to launch a surprise counterattack, damaging one of Mecha's arms.

- Down, but by no means out, Mecha Team Leader smashes Loot Lake's vault, using its energy to deliver a massive punch and send the monster reeling.

- *The Final Showdown!* The fate of The Devourer is sealed in one final strike. Mecha grabs Neo Tilted's Statue of Singularity, revealed to be a giant sword, and slays the monster.

- True to Fortnite form, Mecha Team Leader does a celebratory one-armed victory dance before flying off to the Ice Moon...

**FROM THE
LEGO® FORTNITE
DESIGN TEAM**

We're so excited that fans can recreate this titan from Fortnite history in a highly detailed and enjoyable LEGO® building experience.

This is one of the largest mechs we've ever built with this level of articulation and posable options. We used advanced techniques to add friction to the feet and create stability.

The new XL Joint we recently developed requires eight LEGO pieces to form the joint. They help connect the massive limbs to the mech's torso.

We had to create a strong core that allows the XL Joints to articulate and stay together while making room for a cockpit for the Mecha Team Leader minifigure pilot. We used a combination of LEGO Technic and System bricks, along with bracketing and sideways building.

Mecha Team Leader is fully equipped with the Sword of Singularity, and the minifigure pilot comes with a 'poster' so you can recreate the in-game 'TEAM MECH' emote. We can't wait to see how fans will display this model!

MEET YOUR LEGO® FORTNITE MECHA TEAM LEADER

Merging the features of a bear and a robot into a dynamic and playful design, this unique fusion exudes a vibrant, fun energy that makes it visually striking and memorable.

Each part of the Mecha Team Leader symbolises different styles of its pilot – Singularity:

- The jetpack thrusters on the back consist of two separately built, removable cases.

- Open the chest plate to place the minifigure pilot in the cockpit.

- Torso and head - Cuddle Style.

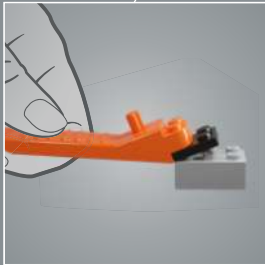

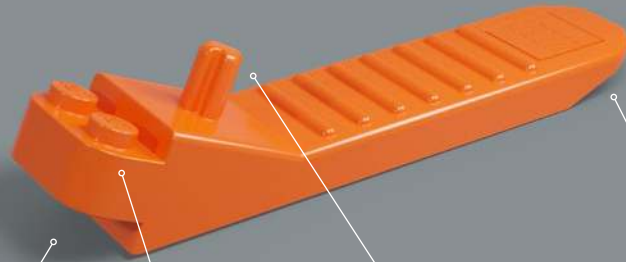

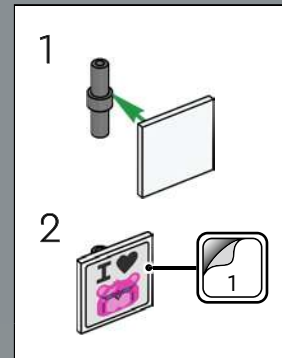

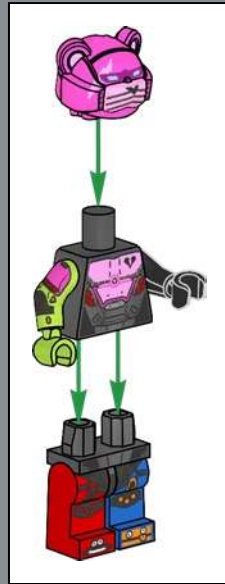

● Attach the sword with the Statue of Singularity hilt to Mecha Team Leader's hand.

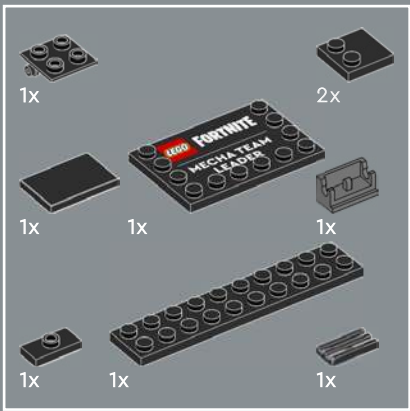

● Four XL Joints provide stability in almost any power pose.

● Right leg - Pizza Style.
Left leg - Durr Style.
Right Arm - Rex Style.
Left Arm - Drift Style.

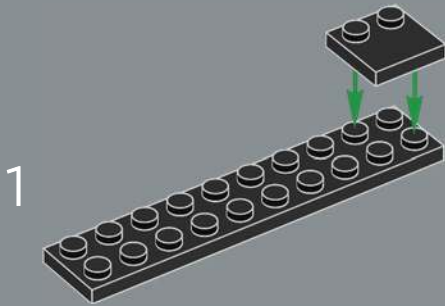

● Wheels below the feet prevent the model's legs from skidding.
