THE ART OF THE BONSAI/L'ART DU BONSAÏ/EL ARTE DEL BONSAÍ

● The art of growing miniature trees in decorative pots originated in China over 2000 years ago. This LEGO® variety is much more modern, but the process and outcome is the same: you assemble, plant and prune your LEGO Bonsai, then watch as it grows into a beautiful creation you can be proud of for yourself and share with others. Enjoy!

● L'art de cultiver des arbres miniatures dans des pots décoratifs a vu le jour en Chine il y a plus de 2 000 ans. Cette variété LEGO® est beaucoup plus moderne, mais le processus et le résultat sont les mêmes : assemblez, plantez et taillez votre bonsaï LEGO, puis admirez sa transformation en une magnifique création que vous pourrez partager avec fierté. Profitez-en !

● El arte de cultivar árboles en miniatura en macetas decorativas surgió en China hace más de 2000 años. Esta variedad LEGO® es mucho más moderna, pero el proceso y el resultado son los mismos: ensamblas, plantas y podas tu bonsái LEGO, y luego ves cómo crece hasta convertirse en una hermosa creación de la que puedes sentirte orgulloso y que puedes compartir con los demás. ¡Que lo disfrutes!

THE LEGO® BONSAI MASTER/LE MAÎTRE DU BONSAI LEGO/EL MAESTRO DEL BONSAI LEGO

● Growing up in New Zealand, LEGO® Designer Nicolaas Vás always loved trees and plants but admits to being pretty bad at looking after them. Luckily, he's much better at creating beautiful horticulture from LEGO elements. His first LEGO Bonsai tree was created as part of his work with the LEGO NINJAGO® series, and since then he's become the Bonsai specialist within the LEGO design team.

● Ayant grandi en Nouvelle-Zélande, le concepteur LEGO® Nicolaas Vás a toujours apprécié les arbres et les plantes, mais admet ne pas être très doué pour s'en occuper. Heureusement, il n'a aucun mal à créer une magnifique horticulture à partir d'éléments LEGO. Il a créé son premier bonsai LEGO dans le cadre de son travail sur la série LEGO NINJAGO®, et il est depuis devenu le spécialiste des bonsais au sein de l'équipe de conception LEGO.

● Durante su infancia en Nueva Zelanda, el diseñador de LEGO® Nicolaas Vás aprendió a amar los árboles y las plantas, aunque admite que no es muy bueno cuidándolos. Afortunadamente, es mucho mejor cuando se trata de crear hermosas obras de horticultura a partir de elementos LEGO. Creó su primer bonsai LEGO mientras trabajaba en la serie LEGO NINJAGO® y hoy es el especialista en bonsais del equipo de diseño de LEGO.

ONE TREE, TWO VARIETIES/UN ARBRE, DEUX VARIÉTÉS/ UN ÁRBOL, DOS VARIEDADES

● The biggest challenge for Nico was deciding which two leaf variations to include for you to build. The first variety is the more traditional Bonsai tree where the foliage ranges from bright to dark green, with the juvenile buds being darker in color. The second tree is inspired by a Japanese Cherry Tree and is much more colorful with striking light purple blossoms. Both options are full of character and capture the wonder and beauty of a real Bonsai.

● Le plus grand défi pour Nico a été de choisir les deux variantes de feuillage à inclure dans cet ensemble. La première variété est le bonsaï plus traditionnel dont le feuillage varie du vert vif au vert foncé, avec des bourgeons de couleur plus foncée. Le deuxième bonsaï est inspiré du cerisier japonais et est beaucoup plus coloré, avec des fleurs d'une couleur mauve clair éclatante. Les deux options ont beaucoup de caractère et rendent parfaitement la magie et la beauté d'un vrai bonsaï.

● Para Nico, lo más difícil fue decidir qué par de variedades de hojas incluir para que construyeras. La primera variedad corresponde a un bonsái tradicional cuyas ramas oscilan entre el verde intenso y el verde oscuro, con brotes juveniles de color más apagado. La segunda se inspira en un cerezo japonés y es mucho más colorida, pues incluye impresionantes flores púrpura claro. Ambas opciones tienen un fuerte carácter y capturan la maravilla y la belleza de un verdadero bonsái.

LEGO® Bonsai trees are surprisingly robust and thrive in indoor environments. Be sure to dust occasionally and your Bonsai tree will continue to remain healthy and beautiful for many years to come!

Les bonsaïs LEGO® sont étonnamment robustes et s'épanouissent dans les environnements intérieurs. Assurez-vous de dépoussiérer votre bonsaï de temps en temps et il restera beau et en santé pour de longues années !

Los bonsáis LEGO® son sorprendentemente robustos y se integran perfectamente en ambientes interiores. ¡Solo asegúrate de limpiarle el polvo de vez en cuando y tu bonsái lucirá sano y hermoso por muchos años!

PLANTS FROM PLANTS/DES PLANTES FABRIQUÉES AVEC DES PLANTES/ PLANTAS CON PLANTAS

● The LEGO Group is working to build a more sustainable future for children. Currently more than 80 LEGO® elements including trees, leaves and bushes are made from a plant-based plastic, produced using sustainably sourced sugarcane, Plants from Plants! These elements represent the first steps of a bigger mission to make LEGO bricks from sustainable sources by 2030.

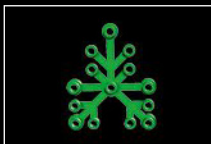

● Le Groupe LEGO s'emploie à bâtir un avenir plus durable pour les enfants. À l'heure actuelle, plus de 80 éléments LEGO®, dont des arbres, des feuilles et des buissons, sont fabriqués à partir de plastique végétal fait à base de canne à sucre de sources durables ; des plantes fabriquées avec des plantes ! Ces éléments constituent la première étape d'une mission bien plus considérable visant à fabriquer des briques LEGO issues de sources durables d'ici 2030.

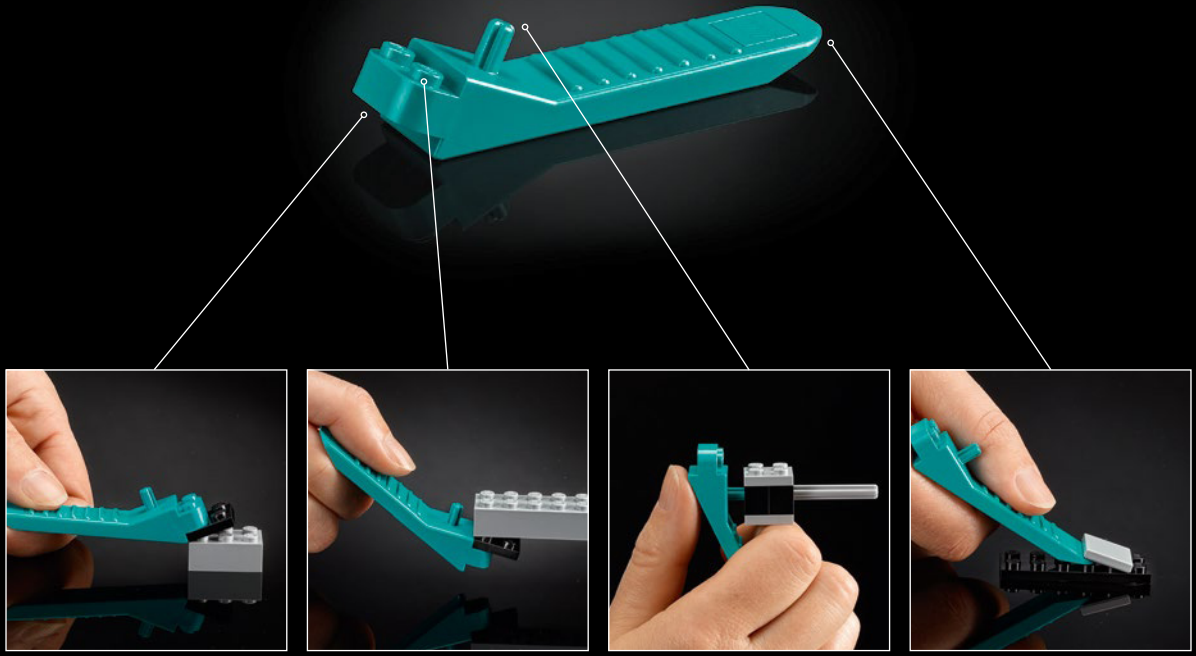

● The LEGO Group está trabajando en la construcción de un futuro más sustentable para los niños. En la actualidad, más de 80 elementos LEGO® (como árboles, hojas y arbustos) se fabrican a partir de plástico de origen vegetal producido con caña de azúcar procedente de fuentes sustentables, lo que da nombre a nuestra iniciativa: Plantas con Plantas. Estos elementos representan los primeros pasos de una misión de mayor envergadura cuyo objetivo es que los bricks LEGO se fabriquen a partir de fuentes sustentables antes de 2030.

KEEP ON GROWING/UNE CROISSANCE CONTINUE/ QUE SIGA CRECIENDO

● Unlike other art forms, a LEGO® Bonsai tree is never complete, but is instead an ongoing dynamic masterpiece. Once you have mastered the first two varieties of LEGO Bonsai, we hope you will want to branch out and create your own individual vision of the perfect tree. We have created this gallery to inspire you in your future building (they cannot be built from the bricks included in this set). While all the elements you see here are LEGO elements, not all of them are still available in our assortment, so hunt up your old LEGO sets and use whatever you find.

● Contrairement à d'autres formes d'art, un bonsaï LEGO® n'est jamais une œuvre terminée, mais plutôt un chef-d'œuvre dynamique en constante évolution. Une fois que vous aurez maîtrisé les deux premières variétés de bonsaïs LEGO, nous espérons que vous voudrez laisser libre cours à votre imagination et créer votre propre vision de l'arbre parfait. Voici quelques modèles pour inspirer vos constructions futures (ces exemples ne peuvent pas être construits à partir des briques incluses dans cet ensemble). Bien que tous les éléments dans ces images sont des éléments LEGO, certains ne sont plus disponibles dans notre assortiment, alors ressortez vos anciens ensembles LEGO et utilisez tout ce que vous trouverez.

● A diferencia de otras formas de arte, un bonsái LEGO® nunca está completo; en cambio, es una obra maestra dinámica y constante. Esperamos que, cuando domines las dos primeras variedades de bonsái LEGO, surja en ti el deseo de crear tu propia visión del árbol perfecto. Preparamos esta galería para que te sirva de inspiración cuando llegue el momento (los modelos no se pueden construir con los bricks que incluye este set). Aunque todas las piezas que puedes ver aquí son elementos LEGO de verdad, algunas ya no forman parte de nuestro surtido, así que aprovecha tus viejos sets LEGO y usa lo que encuentres.
