McLAREN 2022

THE PASSION FOR PERFECTION **LA PASSION POUR LA PERFECTION** **PASIÓN POR LA PERFECCIÓN**

With over 180 race victories and 20 World Championships, McLaren Racing is one of the most successful names in the history of Formula 1. During five decades of racing, the team has become famous for its iconic vehicle designs and technical innovation.

Nothing symbolizes this more than the stunning McLaren F1 race car. Developed specifically for the 2022 season, it combines a smooth "organic" form with state-of-the-art technology. It provided the perfect challenge for the LEGO® Technic™ design team as they tried to recreate the McLaren 2022 Formula 1 car in Technic elements.

Avec plus de 180 courses et 20 championnats du monde remportés à son actif, McLaren Racing est l'un des plus grands noms de l'histoire de la Formule 1. Au cours de cinq décennies de course, l'écurie est devenue célèbre pour ses véhicules emblématiques et ses innovations techniques.

L'époustouflante voiture de course McLaren F1 en est la preuve. Produite tout spécialement pour la saison 2022, elle marie une forme lisse « organique » avec une technologie de pointe. Elle a posé un défi idéal pour l'équipe de conception LEGO® Technic™, chargée de recréer la voiture de Formule 1 McLaren 2022 en éléments Technic.

Con más de 180 victorias en carreras y 20 Campeonatos Mundiales, McLaren Racing es uno de los nombres más exitosos de la historia de la Fórmula 1. Durante cinco décadas de competencias, la escudería ha alcanzado la fama por el diseño característico de sus vehículos y sus innovaciones técnicas.

Nada lo representa mejor que el impresionante monoplaza McLaren F1. Desarrollado específicamente para la temporada 2022, combina una fluida forma "orgánica" con la tecnología más avanzada. Era un desafío perfecto para el equipo de diseño de LEGO® Technic™, que se propuso recrear el Fórmula 1 McLaren para 2022 con elementos Technic™.

2021 Bahrain Grand Prix

CREATING A NEW FORMULA LA CRÉATION D'UNE NOUVELLE FORMULE UNA NUEVA FÓRMULA

The new regulations for the 2022 season presented McLaren Racing's design team with the exciting challenge of developing an entirely new race car from scratch.

With a format that looks to encourage more competitive racing, the team improved the car's aerodynamic wake to allow for closer contests with more thrilling maneuvers. The new, enhanced performance also demanded the development of completely new braking and suspension systems.

"Developing a new Formula 1 car is like assembling a puzzle. We have built significant momentum over recent seasons, and it's important that we continue our upward trajectory as we enter new, uncharted territory. The team has worked hard to embrace the new formula, and we are excited to go racing in a new chapter of the sport."

Andreas Seidl, Team Principal, McLaren F1

Après l'introduction d'une nouvelle réglementation pour la saison 2022, l'équipe de conception de McLaren Racing a dû relever le défi de développer de toutes pièces une voiture de course entièrement nouvelle.

L'équipe a amélioré le sillage aérodynamique de la voiture pour permettre des luttes plus serrées et des manœuvres plus excitantes et ainsi donner lieu à des courses plus compétitives. Les nouvelles performances accrues ont également nécessité l'élaboration de systèmes de freinage et de suspension entièrement nouveaux.

« Développer une nouvelle voiture de Formule 1, c'est comme assembler un casse-tête. Nous avons progressé considérablement au cours des dernières saisons, et il est important que nous poursuivions notre trajectoire ascendante alors que nous nous aventurons en terrain inconnu. L'équipe a travaillé dur pour adopter la nouvelle formule, et nous sommes impatients de participer à un nouveau chapitre du sport automobile. »
Andreas Seidl, Team Principal, McLaren F1

El reglamento para la temporada 2022 planteó al equipo de diseño de McLaren Racing el apasionante reto de desarrollar un auto de carreras completamente nuevo.

Con un formato que busca propiciar carreras más competitivas, el equipo mejoró la huella aerodinámica del auto para lograr competencias más reñidas con maniobras más emocionantes. El nuevo y mejorado desempeño exigió también el desarrollo de sistemas de frenado y suspensión desde cero.

"Desarrollar un nuevo monoplaza de Fórmula 1 es como armar un rompecabezas. Hemos tomado un gran impulso durante las últimas temporadas y es importante no abandonar esa trayectoria ascendente a medida que nos adentramos en territorio nuevo e inexplorado. El equipo ha trabajado duro para adoptar la nueva fórmula y nos entusiasma la idea de pisar el acelerador e iniciar un nuevo capítulo en este deporte".

Andreas Seidl, Team Principal, McLaren F1

**DEVELOPING A NEW FORMULA 1 RACING CAR IS LIKE
DEVELOPING AND ASSEMBLING A PUZZLE**
**DÉVELOPPER UNE NOUVELLE VOITURE DE FORMULE 1,
C'EST COMME ASSEMBLER UN CASSE-TÊTE**
**DESARROLLAR UN NUEVO MONOPLAZA DE
FÓRMULA 1 ES COMO ARMAR UN ROMPECABEZAS**

Andreas Seidl, Team Principal, McLaren F1

**LARS KROGH
JENSEN**
Designer/
Concepteur
LEGO® Technic™

FROM THE DESIGN TEAM UN MOT DE L'ÉQUIPE DE CONCEPTION IMPRESIONES DEL EQUIPO DE DISEÑO

The biggest challenge LEGO® designer Lars Krogh Jensen faced while recreating the LEGO Technic™ version of the McLaren Formula 1 car was the fact that the real race car was still under development. *"It was exciting following the process and seeing their car evolve, but of course, it also meant I was constantly having to make adjustments to our model."* The team started with a sketch build, which quickly revealed extra stability would be needed due to the model's 25.5 in. (65 cm) extended length. Capturing the smooth rounded lines of the car's design in rigid Technic elements was the next big test. But for Lars it was also about the features and functions: *"It wouldn't be a real Technic model without things like the working differential and steering."*

Le plus grand défi auquel le concepteur LEGO® Lars Krogh Jensen a été confronté en travaillant sur la version LEGO Technic™ de la voiture de Formule 1 McLaren était le fait que la vraie voiture de course était toujours en cours de développement. *« C'était passionnant de suivre le processus et de voir leur voiture évoluer, mais bien sûr, cela signifiait aussi que je devais constamment faire des ajustements à notre modèle. »* L'équipe a commencé par un croquis, qui a rapidement révélé qu'il serait nécessaire d'augmenter la stabilité du modèle en raison de sa longueur (65 cm). L'épreuve suivante a été de reproduire les lignes arrondies et lisses de la silhouette de la voiture avec des éléments Technic rigides. Mais selon Lars, il fallait aussi penser aux caractéristiques et aux fonctions : *« Ce ne serait pas un vrai modèle Technic sans des fonctionnalités comme un différentiel et une direction qui fonctionnent. »*

El mayor obstáculo que tuvo que superar el diseñador de LEGO® Lars Krogh Jensen al recrear la versión LEGO Technic™ del Fórmula 1 McLaren fue que el verdadero auto de carreras todavía estaba en desarrollo. *"Fue emocionante seguir el proceso y ver cómo evolucionaba su auto, pero, por supuesto, eso implicó también ajustar constantemente nuestra recreación".* El equipo partió de un borrador que pronto reveló una necesidad de mayor estabilidad por la gran longitud del modelo, de 65 cm. La siguiente gran prueba consistió en plasmar las suaves líneas curvadas del diseño del auto usando los rígidos elementos Technic™. Sin embargo, para Lars también eran fundamentales las características y funciones: *"No sería un verdadero modelo Technic™ sin mecanismos como el diferencial y la dirección".*

THE PERFECT PARTNERSHIP LE PARTENARIAT PARFAIT UNA ASOCIACIÓN PERFECTA

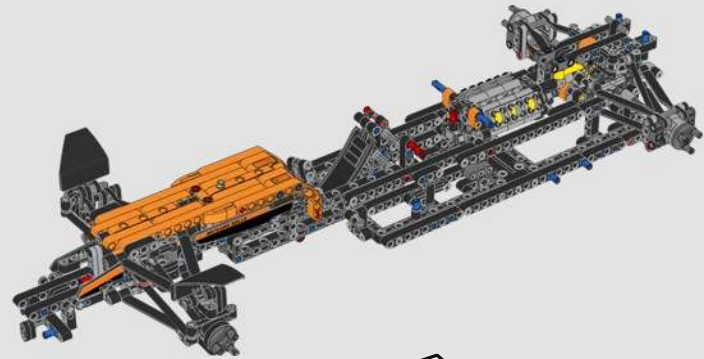

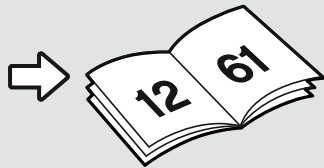

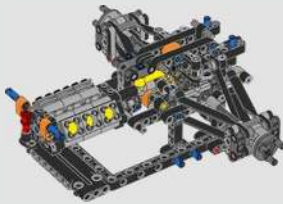

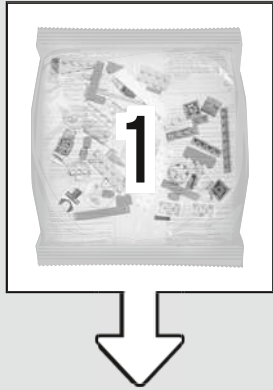

Frequent check-ins between the two design teams were vital to ensuring the final model captured both the look and spirit of the real 2022 McLaren Formula 1 race car. James Key, Executive Director, Technical at McLaren F1 was pleased with the flexibility and collaboration of the Technic designers – *"We began working on the next generation of racing car as soon as the blueprint is revealed. From there the process is almost continuous until the very last moment. We were delighted to have that agile working relationship with the Technic team. The final result looks fantastic."*

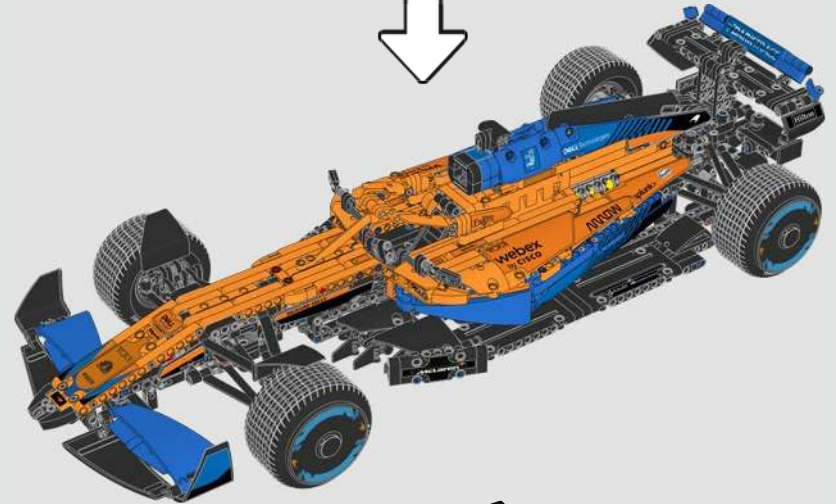

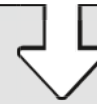

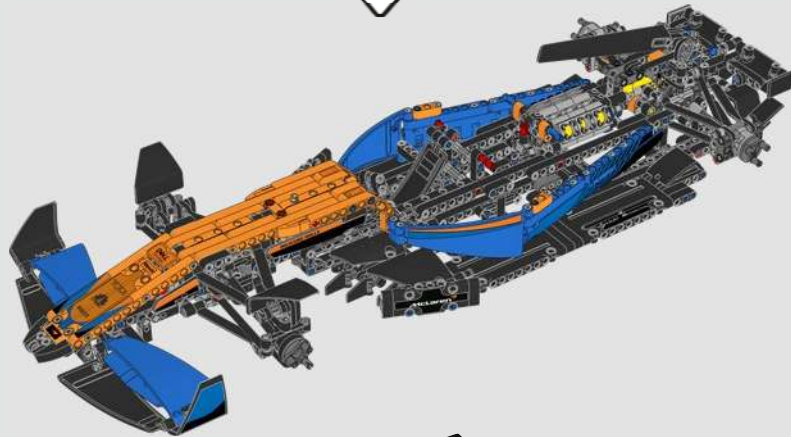

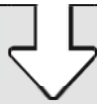

De fréquentes consultations entre les deux équipes de conception ont été essentielles pour garantir que le modèle final reflète à la fois l'aspect et l'esprit de la véritable voiture de Formule 1 McLaren 2022.

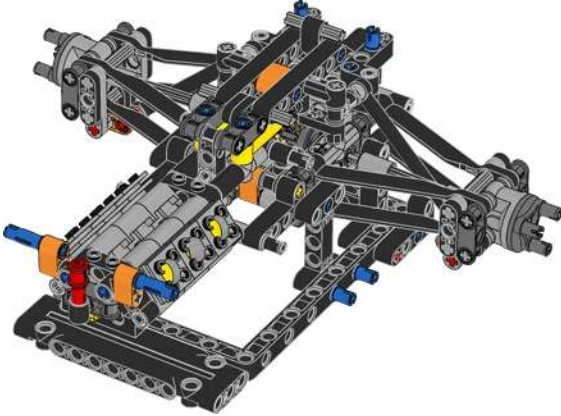

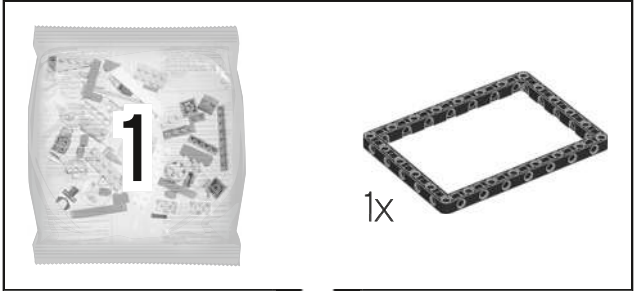

James Key, directeur général du service technique de McLaren F1, a grandement apprécié la flexibilité et la collaboration des concepteurs de Technic : *« Nous avons commencé à travailler sur la prochaine génération de voitures de course dès que le plan a été révélé. À partir de ce moment, le processus est continu presque jusqu'au tout dernier instant. Nous avons été ravis d'avoir une telle relation de travail avec l'équipe de Technic. Le résultat final est tout simplement fantastique. »*

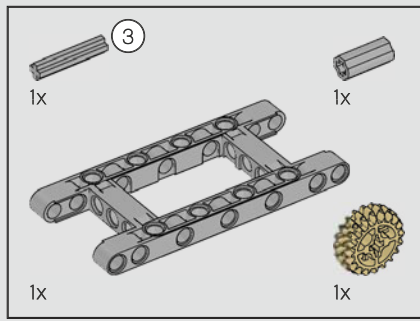

Las frecuentes reuniones entre los dos equipos de diseño fueron esenciales para garantizar que el modelo final capturara tanto el aspecto como el espíritu del auténtico auto de carreras de Fórmula 1 McLaren para 2022.

A James Key (Executive Director, Technical en McLaren F1) le agradó la flexibilidad de los diseñadores de Technic™ tanto como colaborar con ellos: *"Empezamos a trabajar en la próxima generación del auto de carreras tan pronto como se dio a conocer el proyecto. A partir de ahí, el proceso fue casi continuo hasta el último momento. Nos encantó mantener esa relación de trabajo tan ágil con el equipo de Technic™. El resultado final se ve fantástico".*
